

Confederation of Tomorrow 2021 Survey

Detailed Data Tables

REPORT 5 –ATTACHMENT AND ADVANTAGES: **HOW CANADIANS VIEW THEIR COUNTRY, THEIR PROVINCE AND THEIR NEIGHBOUR**

Field dates: January 25, 2021 – March 1, 2021

The Environics Institute for Survey Research
33 Bloor Street East, Suite 900
Toronto, ON M4W 3H1

Technical note: survey weighting

Data presented in these tables are weighted for several factors, including region (province or territory), gender, age, education, immigration background, and Indigenous identity. As the result, for the 450 respondents in the three territories are reduced in weight to their proportion of the total Canadian population. For this reason, the survey sample for the three territories was weighted separately on the basis of gender, age, territory, education and Indigenous identity. This separate weighting was used to generate the results for the territories (individually and as a region) that appear in these tables.

Q US 3. As you may know, the U.S. election in November resulted in the election of Joe Biden as President. Overall, do you think the outcome of the U.S. election will be good for Canada, bad for Canada, or likely have no real effect either way over the next four years?
