Max Bell  
Foundation

NOVEMBER, 2025

The AmericasBarometer is a regular comparative survey of democratic values and behaviours that covers countries in North, Central and South America, as well as a significant number of countries in the Caribbean (the 2025-26 study will cover 20 countries). The project is led by the LAPOP Lab at Vanderbilt University's Center for Global Democracy (CGD). The Canadian survey was conducted by the Environics Institute for Survey Research, in partnership with CGD's LAPOP Lab at Vanderbilt University and with the support of the Max Bell Foundation.

The survey was conducted online with a sample of 3,550 Canadians (aged 18 and over) between July 30 and August 7, 2025. The results are weighted by region, age, gender, education and language so as to be fully representative of the Canadian population.

B1. To what extent do you think the courts in Canada guarantee a fair trial?
